

Research Development & Consultancy Cell

Creation of the Cell:

The Cell is established to promote and facilitate Research as well as Consultancy in Management and Computer Applications areas of the institution. The facility is to act as a synergist in creating Research and Development ambience and culture as an integral part of the functioning of each department and will be one of the chief drivers of future growth to transform itself as an institution of national repute.

Objectives:

- To promote research in the field of management and computer applications
- To coordinate with research centers for the development of research and development cell
- To motivate faculty members and students for participation in conferences, seminars, training and development programs
- To encourage the faculty members and students for presentations of their research work in conference/seminars

Selection procedures:

The faculty members and students offer their choice for acting as coordinators in the Research Development & Consultancy Cell. Based on the choice given by the faculty and students, the College Academic Committee in consultation with Heads of the Departments selects the coordinators.

Tenure:

The tenure of the selected coordinator and members is for one academic year.
